

Bibliography of Papers using NCAR Thermosphere-Ionosphere Models

1981

Dickinson, R. E., E. C. Ridley, and R. G. Roble (1981), A three-dimensional general-circulation model of the thermosphere, *J. Geophys. Res.-Space Physics*, *86*(NA3), 1499-1512, doi:10.1029/JA086iA03p01499.

1982

Hernandez, G., R. G. Roble, E. C. Ridley, and J. H. Allen (1982), Thermospheric response observed over Fritz Peak, Colorado, during two large geomagnetic storms near Solar Cycle Maximum, *J. Geophys. Res.-Space Physics*, *87*(A11), 9181-9192, doi:10.1029/JA087iA11p09181.

Roble, R. G., R. E. Dickinson, and E. C. Ridley (1982), The global circulation and temperature structure of the thermosphere with high-latitude plasma convection, *J. Geophys. Res.-Space Physics*, *87*(NA3), 1599-1614, doi:10.1029/JA087iA03p01599.

1983

Roble, R. G., and B. A. Emery (1983), On the global mean temperature of the thermosphere, *Planet. Space Sci.*, *31*(6), 597-614, doi:10.1016/0032-0633(83)90002-8.

Roble, R. G., R. E. Dickinson, E. C. Ridley, B. A. Emery, P. B. Hays, T. L. Killeen, and N. W. Spencer (1983), The high-latitude circulation and temperature structure of the thermosphere near solstice, *Planet. Space Sci.*, *31*(12), 1479-1499, doi:10.1016/0032-0633(83)90021-1.

1984

Dickinson, R. E., E. C. Ridley, and R. G. Roble (1984), Thermospheric general circulation with coupled dynamics and composition, *J. Atmos. Sci.*, *41*(2), 205-219, doi: 0.1175/1520-0469(1984)041<0205:TGCWCD>2.0.CO;2.

Garcia, R. R., S. Solomon, R. G. Roble, and D. W. Rusch (1984), A numerical study of the response of the middle atmosphere to the 11-year solar-cycle, *Planet. Space Sci.*, *32*(4), 411-423, doi:10.1016/0032-0633(84)90121-1.

Gérard, J.-C., R. G. Roble, D. W. Rusch, and A. I. Stewart (1984), The global distribution of thermospheric odd nitrogen for solstice conditions during solar cycle minimum, *J. Geophys. Res.-Space Physics*, *89*(NA3), 1725-1738, doi:10.1029/JA089iA03p01725.

Hays, P. B., T. L. Killeen, N. W. Spencer, L. E. Wharton, R. G. Roble, B. A. Emery, T. J. Fuller-Rowell, D. Rees, L. A. Frank, and J. D. Craven (1984), Observations of the dynamics of the polar thermosphere, *J. Geophys. Res.-Space Physics*, *89*(NA7), 5597-5612, doi:10.1029/JA089iA07p05597.

Hernandez, G., and R. G. Roble (1984), The geomagnetic quiet nighttime thermospheric wind pattern over Fritz Peak Observatory during solar cycle minimum and maximum, *J. Geophys. Res.-Space Physics*, *89*(NA1), 327-337, doi:10.1029/JA089iA01p00327.

- Hernandez, G., and R. G. Roble (1984), Nighttime variation of thermospheric winds and temperatures over Fritz Peak Observatory during the geomagnetic storm of March 2, 1983, *J. Geophys. Res.-Space Physics*, 89(NA10), 9049-9056, doi:10.1029/JA089iA10p09049.
- Killeen, T. L., and R. G. Roble (1984), An analysis of the high-latitude thermospheric wind pattern calculated by a thermospheric general-circulation model. 1. Momentum forcing, *J. Geophys. Res.-Space Physics*, 89(NA9), 7509-7522, doi:10.1029/JA089iA09p07509.
- Killeen, T. L., and R. G. Roble (1984), Neutral parcel transport in the high latitude F-region, in *The Polar Cusp*, edited by J. A. Holtet and A. Egeland, pp. 261-278, D. Reidel Publishing Co., Dordrecht, Holland.
- Meriwether, J. W. Jr., P. Shih, T. L. Killeen, V. B. Wickwar, and R. G. Roble (1984), Nighttime thermospheric winds over Sondre Stromfjord, Greenland, *Geophys. Res. Lett.*, 11(9), 931-934, doi:10.1029/GL011i009p00931.
- Ridley, E. C., R. E. Dickinson, R. G. Roble, and M. H. Rees (1984), Thermospheric response to the June 11, 1983 solar eclipse, *J. Geophys. Res.-Space Physics*, 89(NA9), 7583-7588, doi:10.1029/JA089iA09p07583.
